Re: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“SEBI Listing Regulations”) – Commissioning of 150 MW Wind Power Project, 9 months before Schedule

Adani Wind Energy Kutchh Three Limited (“AWEKTL”), a subsidiary of Adani Green Energy Limited (“AGEL”), **commissioned 150 MW Wind Power Project** located in Kutchh, Gujarat, **9 months ahead of its Schedule**. This is the 6th project commissioned before schedule by the company over the past 12 months.

The project has a 25 years Power Purchase Agreement (“PPA”) with Solar Energy Corporation of India (SECI) at Rs. 2.82/kwh.

This commissioning takes AGEL’s total operational renewable capacity to 5,070 MW⁽¹⁾, a step closer to its vision of 25 GW capacity by 2025.

With the successful commissioning of this plant, AGEL has an operational wind generation capacity of 647 MW. AGEL has total renewable capacity of 24,294 MW^(1&2) (including asset under acquisition & projects where AGEL has emerged as L1 bidder). With this 150 MW, AGEL has added total operational renewable capacity of 2,525 MW (including 1,750 MW of operational assets under acquisition) during the challenging COVID-19 outbreak.

Like all its other assets, the newly commissioned plant will be managed by the Adani Group’s intelligent Energy Network Operation Centre (“ENOC”) platform that gives AGEL complete centralized visibility and an ability to manage its renewables assets on pan India basis.

Renewables

AGEL through its successive projects, has continued to integrate the objective of sustainability with economic development. Thereby, creating jobs as well as enabling the de-carbonization in line with India's commitment at United Nations Climate Change Conference in Paris and taking it a step closer towards Climate Leadership.

You are requested to take the same on your record.

Thanking You

Yours Faithfully,

For, Adani Green Energy Limited

Pragnesh Darji

Company Secretary

- (1) The capacity includes 4,954 MW Renewable Power portfolio of SB Energy, India, for which AGEL has recently signed definitive agreements for 100% acquisition (of which 1,400 MW capacity is operational, 2,854 MW capacity is under construction and 700 MW capacity is confirmed pipeline).
- (2) The capacity includes 4,500 MW of solar power capacity for which AGEL has emerged as L1 bidder.
