AGEL commissions 100 MW Gujarat Wind Power Project 5 months before schedule

This commissioning takes Adani Green Energy's total operational renewable capacity to 3,345 MWac; a step closer to its vision of 25 GW capacity by 2025.

Editor' Synopsis

- Adani Wind Energy Kutch Three Limited ('AWEKTL'), a subsidiary of the Adani Green Energy Limited (AGEL) commissioned a 100 MW wind power plant located in Kutch, (Gujarat), 5 months ahead of scheduled date of commissioning
- This is the 5th renewables project commissioned ahead of time over the past 12 months
- This plant has 25 Year Power Purchase Agreement ("PPA") with SECI at Rs. 2.82/kwh
- This commissioning takes Adani Green Energy's total operational renewable capacity to 3,345 MW; a step closer to its vision of 25 GW capacity by 2025

Ahmedabad, 8th March, 2021: AWEKTL, a subsidiary of Adani Green Energy Limited ('AGEL'), commissioned a 100 MW Wind Power Plant in Kutch (Gujarat) 5 months ahead of its schedule. This is the 5th project commissioned before schedule by the company over the past 12 months.

The plant has Power Purchase Agreement ('PPA') with the Solar Energy Corporation of India (SECI) at Rs. 2.82/kwh.

With the successful commissioning of this plant, the company has an operational wind generation capacity of 497 MW. AGEL has total renewable capacity of 14,815 MW including 11,470 MW that have been awarded and are different stages of implementation. With this project the company has added total renewable capacity of 800 MW since the last 12 months the company has added despite the challenges of the COVID19 outbreak.

Like all its other assets, the newly commissioned plant would be managed by the Adani Group's 'Intelligent Energy Network Operation Centre' platform that gives AGEL complete centralized visibility and an ability to manage its renewables assets on pan India basis.

AGEL through its successive projects has continued to integrate the objective of sustainability with economic development thereby creating jobs as well as enabling the decarbonization in line with India's commitment at United Nations Climate Change Conference in Paris and taking it step closer towards Climate Leadership.

About Adani Green Energy Limited

Adani Green Energy Limited ("AGEL"), a part of India-based Adani Group, has one of the largest global renewable portfolios over 14,815 MW of operating, under-construction and awarded projects catering to investment-grade counterparties. The company develops, builds, owns, operates and maintains utility-scale grid-connected solar and wind farm projects. Key customers of AGEL include the National Thermal Power Corporation ("NTPC") and Solar Energy Corporation of India ("SECI") and various state discoms. Listed in 2018, AGEL today is a USD 25.03 billion market cap company

helping India meet its COP21 goals. This financial year, Mercom Capital, the US-based think tank ranked the Adani Group as the #1 global solar power generation asset owner. For more details: www.adanigreenenergy.com
