

ASHWARYA MOHANTY
VADODARA, MAY 31

THE DEATH of a 46-year-old clerk working with Panchmahals forest department, who tested positive for Covid-19 after his cremation, has authorities on their toes after his body was sent with his relatives who held his last rites, reportedly in the presence of a huge gathering.

Over 200 people who are suspected to have come in contact with the patient have been traced from two districts. Contact tracing is also under way at GMERS where the patient was brought in from Godhra Civil Hospital with myocardial infarction (heart attack) on Friday before he died.

Authorities at the Vadodra Gujarat Medical Education and

pected case. We wrapped him as per protocol but since the samples were not collected from here, we did not inform the police. Ideally they are not allowed to carry the body of a Covid patient or a suspected case," said Dr Vishala Pandaya, Medical Superintendent of GMERS. Despite repeated attempts, the family was unavailable for comment.

The forest department clerk was admitted at the Civil Hospital Godhra with liver ailments and hypertension. On Friday afternoon, he developed Covid symptoms. He was shifted after his samples were collected for testing and his report came positive on Saturday evening.

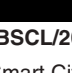

His body was then taken to Mota Sonela in Lunawada taluka of Mahisagar district for final rites. According to villagers, around 100 people gathered for the rites. A close contact of the

family, on condition of anonymity, told this newspaper, "People from even nearby villages gathered for the funeral."

Sub-district magistrate of Lunawada, BB Modiya, said that the health department was tracing his close contacts. "We are investigating the number of people who attended the funeral... If it is more than 20, which is a violation of the lockdown guidelines, we will take action."

Both the Panchmahals and Mahisagar district administrations have started extensive contact tracing of the man. "We have formed five teams. Over 100 people have been advised home quarantine already," Dr Jain said.

In Mahisagar, around 150 have been traced and home quarantined. "They will be observed and samples will be collected after three days," said Dr SB Shah, CDHO Mahisagar.
